Free Span Structure	10m (32.8')
Free Span Length	Any length in increments of 5m (16.4 feet)
Note: Using rafter extensions and appropriate roof panel, the structure can be increased in width to 15m	

### Roof Cover

Manufactured from Flame Retardant, Anti Mildew Polyester Vinyl Coated Fabrics with Blackout Effect. The standard color is white. Striped patterns and custom colors are available upon request. Roof and wall panels slide into grooves of the frame to provide a tight weatherproof fit.

### Side Wall Cover

One piece or two pieces. Side walls slide in track at frame, and end walls attached to rings which slide on wall bar, for easy opening and closing. Optional wall materials include: solid matching roof panels, French window walls, clear window walls, mesh, rigid panels or glass doors complete with crash hardware.
